Derek Casady, President, 858-457-0246 . Nancy Casady, Treasurer  
Ann Kennedy, Webmaster . Carolyn Shadle, Newsletter Editor

**November Meeting - the 3rd Sunday - November 20, 2:00-4:00 p.m.**

**NEW LOCATION:**

**Community Room, AMC La Jolla 12 Theater  
8657 Villa La Jolla Drive, 92037**

Two important agenda items:

1. Consider endorsing a Democratic candidate for the U.S. Congress, 52nd District:

***NOTE: Redistricting has put La Jolla in the 52nd District, which Brian Bilbray now serves. La Jolla is NO LONGER in Susan Davis' district. DEMOCRATS HAVE AN OPPORTUNITY TO WIN THE 52ND!***

Lori Saldaña served six years as Assemblywoman before being termed out in 2010 and is currently a professor at SDSU. Long interested in water reclamation and sewage treatment, she was appointed by President Clinton to the Mexican-US Border Environment Cooperation Commission's Advisory Council. Her Assembly service following a career as an environmental policy research fellow at UCSD and a community college teacher specializing in technical vocational workforce development.

Scott Peters is Chairman of the SD Unified Port Commission. He served as supervisor in the Office of SD County Counsel. He represented La Jolla on the SD City Council for eight years and served as its first City Council President from 2006 to 2008. This service followed his work as an economist for the U.S. Environmental Protection Agency.

## Tax on Financial Transactions

**A resolution** is being considered by the California Democratic Party Resolution Committee. Read full copy below. International support among the G20 is also growing for this tax. On Nov. 3 a rally will be held in Washington, D.C. to demonstrate support. See <http://c3190322.r22.cf0.rackcdn.com/FTT-flier-2up-rev2.pdf> or contact [conor@pdamerica.org](mailto:conor@pdamerica.org) for details.

**Whereas** the economy of California, and the entire nation, was severely damaged in a recession triggered primarily by Wall Street-led investment banks and hedge funds trading in opaque and poorly regulated financial instruments, resulting in a severe contraction of credit and lending, significant loss of revenues to federal, state and local governments, decimation of public and private funds held for pensions and retirement, the loss of millions of jobs, and forcing California and other states into a deepening of annual deficits, devastating austerity measures, layoffs and curtailment of essential services,

**Whereas** Wall Street investment banks, hedge funds and similar entities across the nation currently pay zero sales tax on a host of highly profitable transactions, while in contrast American families dutifully pay sales tax of up to 10% every time they purchase necessities including school supplies and children's shoes; and a small fee on financial transactions could raise hundreds of billions or trillions of dollars in new revenue that could be spent on job creation and reduction of deficits,

**Whereas** such a tax, in various forms, on financial transactions has already been strongly supported in legislation sponsored by prominent Democrats including Rep. John Conyers (D-MI) and Rep. Peter DeFazio (D-OR), by labor organizations, including the AFL-CIO and the California Nurses Association, the Congressional Progressive Caucus, and by prominent economists Paul Krugman, Joseph Stiglitz and Dean Baker,

**Therefore be it Resolved** that the California Democratic Party supports the establishment of a national Wall Street Transactions Tax on securities transactions, including but not limited to speculative trading, high-speed flash trading, and derivatives, and exempting tax-deferred retirement accounts of U.S. citizens, pension plans, and similar payroll savings plans.

**Be it Further Resolved** that copies of this resolution be transmitted to all members of the California Democratic Congressional delegation for further action.

We have peaceably assembled...to let these facts be known:

- They have taken our houses through an illegal foreclosure process, despite not having the original mortgage.
- They have taken bailouts from taxpayers with impunity, and continue to give Executives exorbitant bonuses.
- They have poisoned the food supply through negligences, and undermined the farming system through monopolization.
- They have continuously sought to strip employees of the right to negotiate for better pay and safer working conditions.
- They have held students hostage with tens of thousands of dollars of debt on education, which is itself a human right.
- They have consistently outsourced labor and used that outsourcing as leverage to cut workers healthcare and pay.
- They have spent millions of dollars on legal teams that look for ways to get them out of contracts in regards to health insurance.
- They determine economic policy, despite the catastrophic failures their policies have produced and continue to produce.
- They have donated large sums of money to politicians supposed to be regulating them.
- They continue to block alternate forms of energy to keep us dependent on oil.
- They continue to block generic forms of medicine that could save people's lives in order to protect investments that have already turned a substantive profit.
